# FIRERITE SERVICES

PIPEWORK & ENGINEERING SERVICES

## FIRE SAFETY

Market leaders in providing design, installation and maintenance of Automatic Fire Sprinkler, Fire Extinguisher, Fire Alarm & Emergency Warning Systems

## About us

Pipework & Engineering Services trading as Firerite Services is a leading and trusted company within the Fire Protection industry for over 20 years. We provide innovative solutions and cutting edge technology backed by technical excellence and a company wide commitment to personal customer service.

Originally founded in Brisbane 1994, Firerite Services has grown and become one of the most respected providers of fire protection installations, products and services in Australia. Firerite is currently delivering on some of the largest construction projects in Australia.

Our company ethos is about providing superior customer service, taking pride in our work and delivering our innovative services in a safe and transparent manner.

Every day our staff approach their work with excellence in customer service, honesty and integrity, innovation, pride and safety. We are a registered and valued member of the Fire Protection Contractors Registration Board of QLD, a member of the NFPIA (Q) and are also Cm3 accredited.

## Installation

Our team of highly experienced Fire Sprinkler and Alarms Technicians work with our design team to ensure seamless installation and progress. We specialise in large scale Commercial, Residential, Retail Centres, Warehouses and also smaller tenancy fit-out works. We offer cutting edge modelling techniques and innovative technologies - call us today for more information.

## Design

Preconstruction planning and designing is crucial for the success of your project. Our professional team works with you to prepare a cost effective, efficient and safe fire protection system that meets your requirements. We can provide 2D Auto Cad and 3D Revit Modelling.

## Maintenance

We offer outstanding Fire Sprinkler, Portable Fire Equipment, Emergency Exit Lighting, Fire Door and Alarm Maintenance. Our experts will bring their expertise to any project, large or small.
